CoverME.gov is required by federal law to be sure that people who enroll in health insurance through the site are eligible. We're also required to be sure that people who receive help paying for insurance are eligible for the help they're receiving.

When you apply for coverage through CoverME.gov, if we need information to verify what you told us on your application, we'll send you a notice and tell you what information we need. Read the entire notice, pay attention to deadlines, follow the instructions, and call us right away if any of the information is incorrect. You must submit the information requested by the deadline, or you could lose your coverage or cost savings. You don't need to submit documents unless we request them.

This document serves as a record for what documents CoverME.gov will accept to resolve the numerous types of Data Matching Issues (DMI).

Consumers must submit accepted documentation to confirm the information in their application that was found to be inconsistent with the trusted data sources used by the Marketplace. Documentation may be submitted online or via mail. In general, consumers have 90 days to submit documentation to resolve their DMI. They may enroll in health insurance and receive applicable financial help under temporary eligibility. If the DMI is unresolved after 90 days, the consumer may lose their enrollment or financial help.

**Calculating Income:**

**Summary of Calculation**

- Review document and determine pay frequency (either stated or you need to look at pay period start and end date, pay dates of multiple pay stubs, etc.)
- If unable to determine frequency: can assume the frequency is the same as the frequency attested by the consumer unless it is very unlikely that frequencies are the same
- If the attested frequency does not match the frequency from the document, you will have to convert the frequency of both attested and documented income to annual (guide contains instructions for this calculation) then can compare attested and calculated
