

## Special Enrollment Periods

Once Open Enrollment ends each year, you must meet certain criteria to be able to enroll, change plans, or add someone to your plan. If you meet these criteria, you will qualify for a Special Enrollment Period (SEP) – a limited time where you can enroll in a new plan or make changes to your existing plan outside of Open Enrollment. You should report life changes that may make you eligible for a SEP as soon as possible by logging in to your CoverME.gov account or calling us at (866) 636-0355 TTY: 711.

You may qualify for a Special Enrollment Period if someone in your household who is eligible for insurance through CoverME.gov reports one of the qualifying life events listed below *either 60 days before or within 60 days following the event*.

- **Lost or will soon lose comprehensive health coverage.** Coverage selected through this SEP will take effect the first of the month following the date that you select your plan, or the first of the month following last day you had your prior coverage (whichever is later).

Examples that may qualify someone for this SEP include:

- Lost or quit their job.
- Lost Medicaid or other government-sponsored coverage.
- Is turning 26 and can no longer stay on a parent's plan.
- Lost coverage for any other involuntary reason. (Please note that if the person asked for coverage to end, stopped paying, or did not pay on time, this does not apply).
- **Moved or is moving to the state of Maine.** Coverage selected through this SEP will take effect the first of the month following the date that you select your plan.
- **Gained an offer of a Health Reimbursement Arrangement (HRA) during the plan year.** This SEP applies when you receive a new offer of an HRA, which is available to you immediately. Your coverage will take effect the first of the month following your HRA effective date, or the first of the month following the date of plan selection, whichever is later.
  - Advance notice of an HRA offer at the beginning of the plan year may also qualify you for a SEP, and can be reported up to 60 days before the effective date of the HRA.
- **Losing government or employer subsidies for COBRA.** Coverage selected through this SEP will take effect the first of the month following the date your subsidy expires, or the first of the month following the date of plan selection, whichever is later.
